

Open Edge browser and then click on the Three dots on the right top end corner of the screen as shown in the image below.

Select “Settings” option

Setting Dialogue box will open and please select Default Browser as shown below

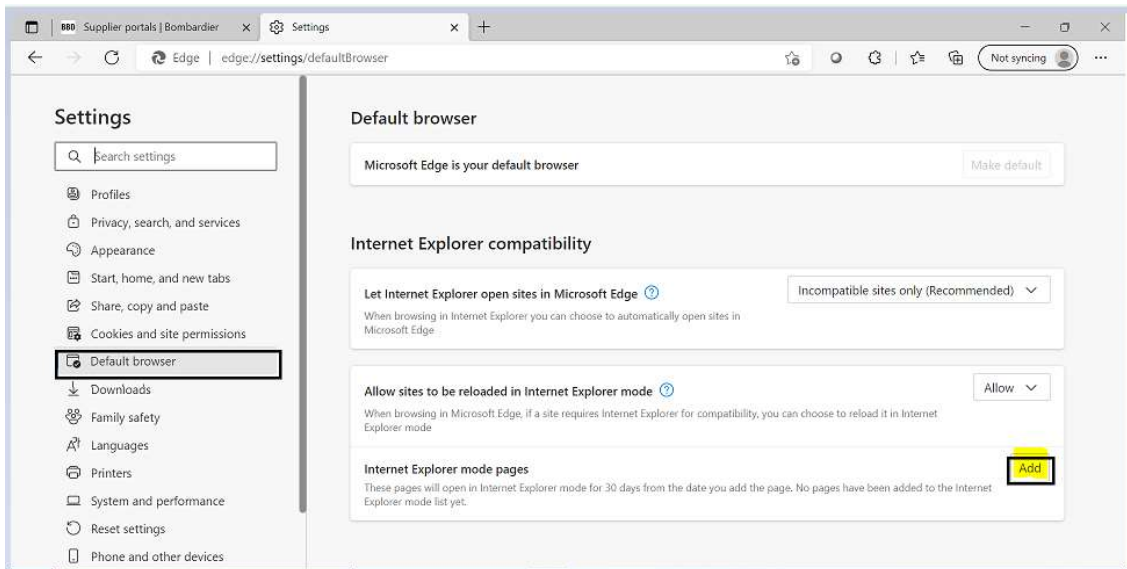

And from Drop down list “Allow” needs to set

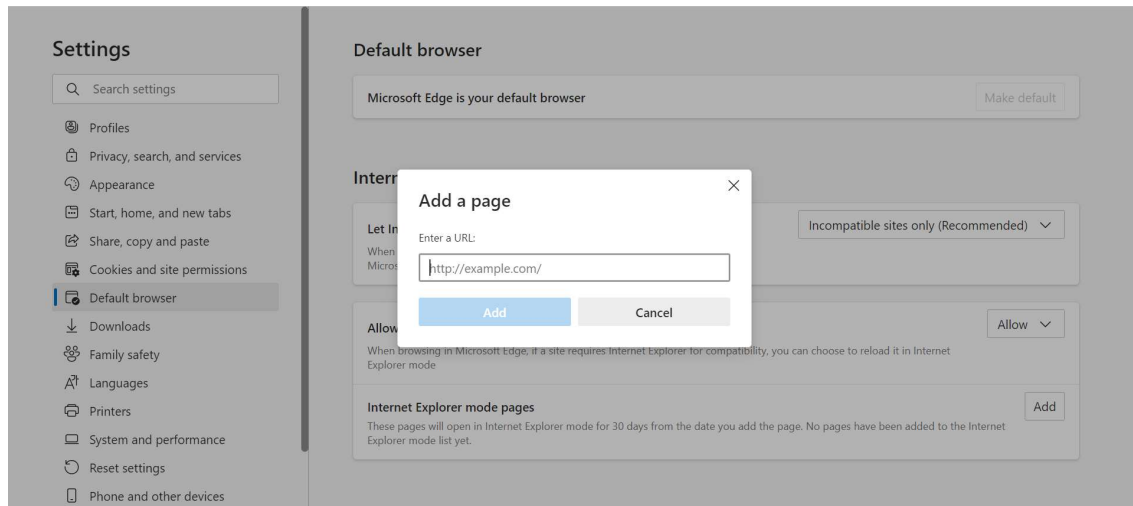

After Setting the Value to “Allow” an “Restart” Browser option will appear.

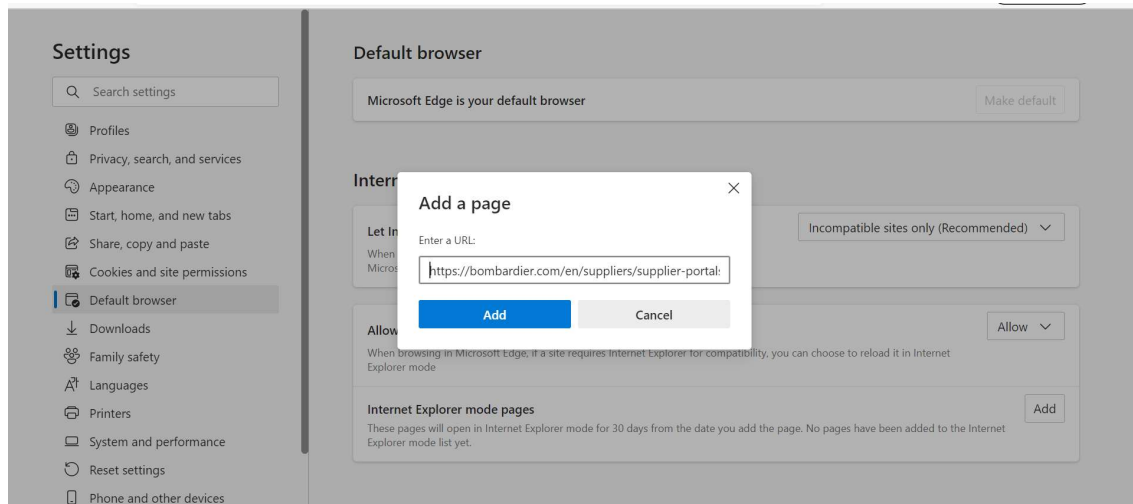

Please click on restart and browser will be closed and opened in “IE mode”

Click on ADD as highlighted below

Add Url [https://supplier2.aero.bombardier.com/irj/portal?j\\_authscheme=siteminder](https://supplier2.aero.bombardier.com/irj/portal?j_authscheme=siteminder)

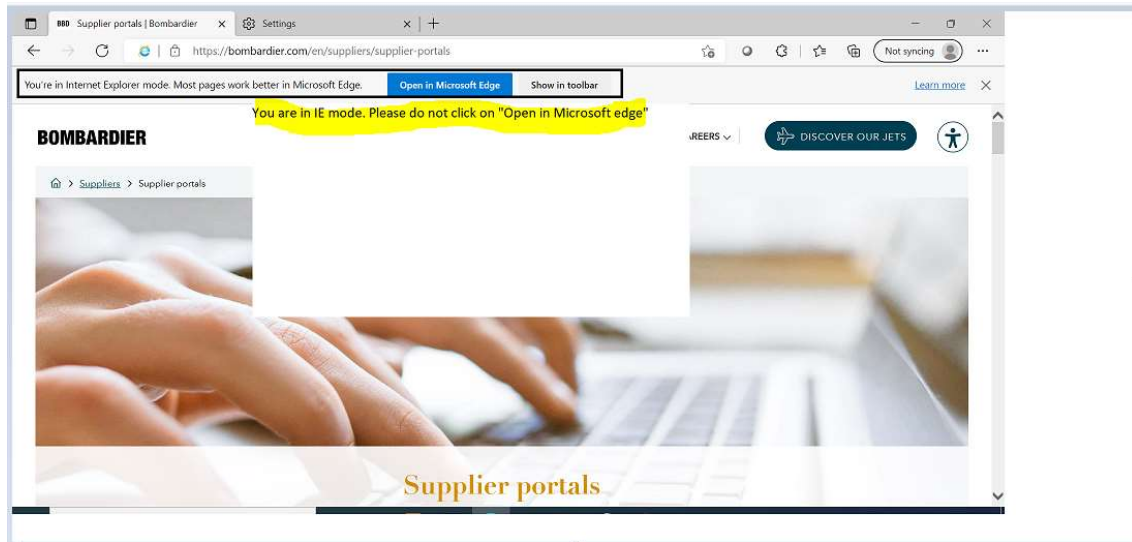

Click on ADD again.

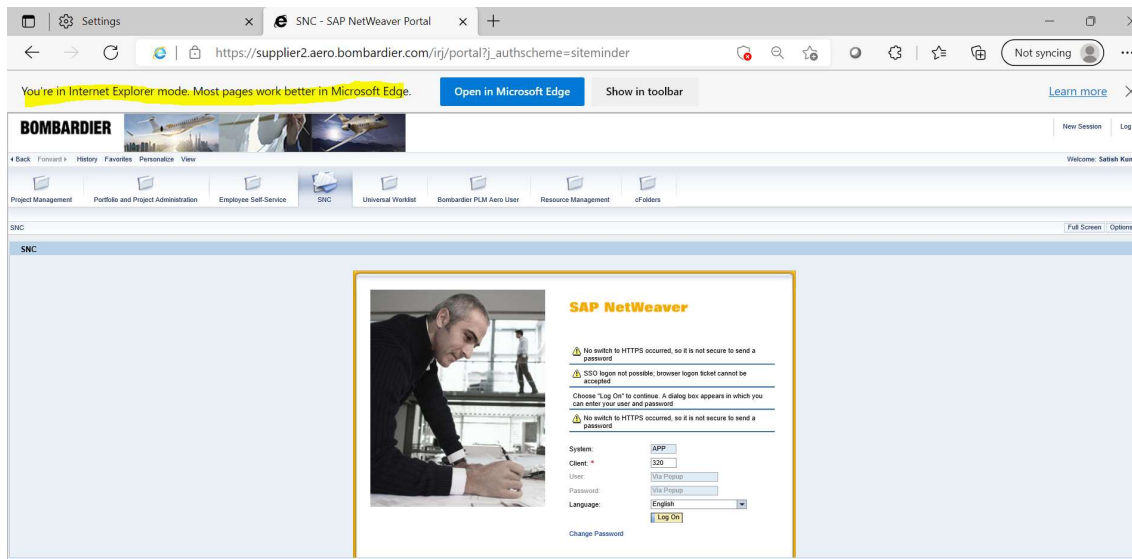

You can see that the Url has been added successfully.

---

Open a new Tab and enter supplier portal URL <https://bombardier.com/en/suppliers/supplier-portals>

Now you should be able to access the SNC Portal and Cfolders as in IE browser as usual.
